NYNOMIC AG

Am Marienhof 2, D-22880 Wedel

imug SUSTAINABILITY RATING
RATING 2022
GOOD

69/100
GOOD

imug | rating has been commissioned to prepare a sustainability rating of NYNOMIC AG.

NYNOMIC AG's overall sustainability performance is rated as good. Its ESG management is also rated as good. More than 50 percent of its products and services are assessed as positive from a sustainability perspective. The Company is not involved in any controversial business activities or in any systematic and/or seriously controversial business dealings.

NYNOMIC AG is an internationally active manufacturer of products for permanent, non-contact and non-destructive optical measurement technology. The products and services are based on a wide range of intelligent sensors for measuring optical radiation and smart technologies for acquisition, processing and evaluation of data. Together with its subsidiaries, the Company provides non-contact optical measurement technology along the entire value chain – from components and systems to applicable solutions.

ESG MANAGEMENT

53 Points
WEIGHTING 50%

Products and Services

Positive Products

NYNOMIC manufactures innovative photonic measurement technology products for measuring parameters that are of vital importance in the fields of life science, green tech and clean tech. As such, more than half (approximately 52 percent) of NYNOMIC's business activities are assessed as positive from a sustainability perspective.

76 Points
WEIGHTING 30%

Neutral Products

The Company's other products/services are assessed as neutral.

Negative Products

The Company does not market any products that are considered to have a negative impact on sustainability.

Controversial Business Activities

NYNOMIC AG is not involved in any controversial business activities. These include the operation of nuclear power plants, the production of essential components for nuclear power plants, the extraction and conversion of fossil fuels, the production of controversial or conventional weapons, the production of hazardous chemicals, the production and distribution of alcohol, tobacco or cannabis, gambling, animal testing for cosmetics and industrial livestock production.
